That this contention is backed up by facts, it is only necessary to read the testimonials of well-known ladies who have been restored to health by Plant Julice. One of the most recent is that of Mrs. Catherine Donovan, of No. 1644 Hobart Street, N. W., a popular lady of this city, who has hosts of friends and acquiantances. She stated:

"I have suffered for several years with stomach and bladder trouble. My food fermented and caused gas to form in my stomach, and I suffered great pain after eating. I had head-aches, dizzy spells, and was so nerecous that I could not sleep at night; my liver and kidneys were also affected, and I was badly constipated—in fact my entire system was in a badly run down condition. I had heard so much about the cures that your Plant Julce was making in our city that I finally decided to try it. I have only taken it for a short time and can truthfully, say that the result has been simply marvelous. I feel like a new woman and am glad to give this public indorsement for Plant Juice.—Advt.
